Peripheral Prisms are most helpful when your patient is mobile - either walking or driving.

Our peripheral prism fitovers are the most affordable way to get your patient the substantial benefits of permanent prisms.

Fitovers are designed to be worn over your glasses. They are affordable and can be used over any pair of glasses, so there's no need to update them if your prescription changes.

For more information about the Peli Lens™ and other frame options check out our Peli related material at [chadwickoptical.com/pfg](http://chadwickoptical.com/pfg).

### Field Expansion Temporary vs. Permanent

17° VISUAL FIELD  
EXPANSION WITH  
TEMPORARY PRISMS

30° VISUAL FIELD  
EXPANSION WITH  
PERMANENT PRISMS
